THE BEACH AT CHATHAM ON CAPE COD

COVER - CLASSICAL TASTE

THIS GRECIAN TEMPLE ON THE COVER IS AN EXAMPLE OF THE VARIED TASTE OF THE INDIVIDUAL YANKEE. AMONG THE CAPE STYLE COTTAGES OF THE TOWN OF CHATHAM THIS HOME CERTAINLY IS DIFFERENT AND YET IT FITS IN WITH SURPRISING APLOMB.

Selectmen's Meeting

Police Chief Duane Tuttle and Wayne Viera, president of the Police Brotherhood, met with Selectmen regarding the retirement of Edward Cacilhas. They said that the police union's sick leave bank has 19 1/2 days of accumulated sick leave pay and the members had voted to give 19 days of this to Cacilhas. Patrolman Cacilhas, a 15-year member of the department, is 55. The 19 days of sick leave granted to Cacilhas will take him to January 13 which is the day of his retirement

The Selectmen will write to Patrolman Cacilhas in thanks for his 15 years of service with the Mattapoisett Police Department.

Chief Tuttle also talked with Selectmen

Donald Fleming has ruled that the Chief has no right to enter into a contractual agreement binding to the town. According to the Chief, the federal government requires the town to enter into a mutual aid pact. The Selectmen are agreeable to such an agreement provided that it can be worked out so that the town is not liable for crews from other towns who are working in Mattapoisett. They instructed the Chief to get together with Town Counsel Fleming and review the wording of the agreement to see that the town's interest is protected; if so, they authorize Chief Tuttle to sign it.

BOLLES FUND

Bay Bank Merchants informed Selectmen, by letter, that $652.69 is available in the Lewis R. Bolles Fund which is for the upkeep of the town parks. Selectmen will use some of this fund for repair and refinishing of the Long Wharf swordfish.

FINANCIAL DISCLOSURE OPPOSED

Representative William MacLean wrote with information regarding a Massachusetts bill to require town officials to furnish a complete financial disclosure statement. The Board unanimously will express opposition because they can see no point to the statute at that level of service.

EPA APPROVES CHANGE ORDER

A change order for a 4" sewer line from the Harris house to the pumping station was approved by the E.P.A.

VETERANS' MEETING

A memo was received from Harry Brown advising of a Veterans' Executive Council meeting on January 18th at 7:00 P.M. in the Mattapoisett Town Hall.

FARMERS HOME LOAN

Correspondence was received from Tighe & Bond advising that Mattapoisett should be in a position to make a request to Farmers Home Administration for $500,000 in the summer of 1979.

INFORMED OF CLAIM

Correspondence was received from Emanuel Torti, d/b/a AAA Construction Equipment Company, informing the town that he has filed a claim in the amount of $69,000 against Bay Corporation for the non-payment of money due under a lease agreement.

AAA Construction Equipment Company was the owner of the box used in front of the Town Hall in the trench digging. The Town Counsel is to reply.

Mattapoisett Woman's Club

JANUARY MEETING

The January meeting of the Mattapoisett Woman's Club will be held on January 18th at 1:00 P.M. in the Congregational Church Hall. Guest speaker will be Mr. John Bullard of the Waterfront Historic Area League (WHALE) of New Bedford. Mr. Bullard is a member of several organizations for historical preservations with expertise in revitalization and restoration of New Bedford's historic district. Part of the program will include a slide presentation.

Mrs. John O'Leary will be hostess for the day. Babysitting will be available.

MATTAPOISETT WOMAN'S CLUB
LITERATURE GROUP

The Literature Group will meet on Wednesday, January 17th, at 9:30 A.M. at the home of Bert Kelley on North Street. Assistant hostesses will be Rose Kouble and Norma Holt.

The book for study and analysis will be Nathaniel Hawthorne's The Scarlet Letter. Dorothy Fox will present a review.

wear over outer clothing while delivering papers. The vest greatly increased his visibility to passing motorists especially at high risk times such as at dawn and dusk, in fog, and in snowstorms. Carriers also participated in a "Safety First" Slogan Contest and spent an evening on "Rules of the Road" and bike safety given by the Mattapoisett Police Department and organized by the Woman's Club. Favorable comments were heard all over town and from many neighboring communities as Safety became the by-word.

Now - 15 months and 0 accidents later - the Woman's Club is happy to report that several carriers in Mattapoisett are still faithfully donning safety vests before starting their routes. The Mattapoisett Woman's Club plans to feature those carriers next week in this paper and also to make vests available to all new carriers. Carriers without vests can obtain them by calling Mrs. Joan Braden at 758-6200 or Mrs. Marlene O'Neill at 758-4623.

The Mattapoisett Woman's Club believes it takes a mature and conscientious person to recognize that safety-awareness is not mere child's play and that highways and

Costa's Quality Kitchens

TRAVEL A LITTLE --- SAVE A LOT!

Since the opening of Costa's Quality Kitchens' showroom at 6 McCabe Street in South Dartmouth, many people have been impressed with the layout and interested in knowing how such kitchens could be incorporated into their own homes.

The new showroom features the indoor-outdoor barbecue, sink disposals and space-saver cabinets. Owner Gilbert A. Costa and his son Gilbert W. are professionals and have been designing and creating kitchens for over 20 years.

Building or repairing a kitchen is no job for an amateur and the Costas, part of Costa's Quality Builders, Inc., can rebuild or model an entire kitchen for you.

All the big names in kitchen appliances are available.

If you are interested in kitchen appliances or are considering having some work done, call Costa's at 999-6754 or drop by their showroom and look over the many items they have.

ENERGY OFFICE AND LEAGUE OF WOMEN VOTERS IN CONSERVATION PROGRAM

The Massachusetts Energy Office and the state League of Women Voters (LWV) have announced plans to join together in a statewide effort to get out the conservation message.

Supplied with the Energy Office's most comprehensive booklet on saving energy, local leagues will be developing innovative plans for ongoing energy education programs on a broad geographical scale across the Commonwealth. Individual leagues, with a keen perspective on what will work best in their specific areas, will be planning conservation programs ranging from small neighborhood meetings to larger gatherings at shopping malls and local Town Meetings.

The project, designed by both the Energy Office and the League, has a unique potential to provide conservation information.

Along with the "How to Save Money by Saving Energy" booklet, the Leagues will also be giving out the 1979 EPA auto mileage guide. "This program will be the most comprehensive attempt yet to disseminate residential energy conservation information to Massachusetts' homeowners," said Henry Lee, Director of the Energy Office. "It will involve distribution of a special energy conservation packet to more than 40,000 homes throughout the state," Lee added.

The booklet, created by the Energy Office, contains 10 smaller brochures discussing conservation and general energy topics ranging from woodburning stoves and solar energy to tips on oil burner

Introducing the Savings Check-Up.

Think of it as a physical for your finances.

The new Savings Check-Up service at Fairhaven Savings is a simple way to make sure you're on the right track to meet your savings goals. Your Fairhaven Customer Counselor can tell you exactly how healthy your savings plan is—and what you can do to make it stronger.

For example, you might discover that you can get more interest or more convenience by switching to a different kind of account. (We offer 9 different savings accounts in all—from regular savings to 90-Day Notice accounts to Certificates of Deposit.) Or maybe you'll find that you should divide your savings between two accounts.

No matter how much you're saving—no matter what you're saving for—you'll feel better when you know what kind of shape you're in.

For your Savings Check-Up, see your Customer Counselor.

tune-ups and efficiency.

The League of Women Voters' Energy Committee will be coordinating the effort which will be underway in the middle of January.

"We feel that the Leagues are especially skilled in knowing the best local methods for disseminating the information and will use this knowledge to get the booklets to the most people," said LWV Energy Chairman, Mary Dawson.

YOUR HEALTH CARE
WHO PLANS FOR IT

Barbara Fegan will speak at an open meeting on "Health Care Planning -- Why, by Whom and For Whom". The meeting will be held on Wednesday, January 17, at 7:30 P.M. in the Auditorium of the Marion Congregational Church. It is sponsored by the Marion-Mattapoisett Area League of Women Voters.

Mrs. Fegan is President of Southeastern Health Planning and Development, Inc., a Health Systems Agency funded by the Department of Health, Education and Welfare. She will cover the reasons why health planning is necessary, how it works, what it will cover and why "providers" and "consumers" (that is the public) of health care should share in the planning. Her talk will be illustrated by slides and ample time will be allowed for questions and discussion.

Health Service Agencies may possibly make decisions on many matters such as: what hospitals will offer what services --

Le Petit Godin Wood Coal Stove

Only the very, very rich can afford to live without one.

Le Petit Godin burns wood or coal all night long. Las Vegas Night

Please make a note on your calendar and make baby sitting arrangements early because the Mattapoisett Parent-Teachers' Club is having their fun-filled Las Vegas Night again. Ask anyone who attended last year what a good time we all had! This is a major fund-raiser for the P.T.C. and with the cooperation of all parents it can be a smashing success. If you are interested in serving on a committee or donating a prize please contact Marsha Kelley (758-2072) or Sally Souza (758-6471). The date - Saturday, February 3rd; the time - 7:30-11:00 P.M. with the auction to follow; the place - St. Anthony's Church Hall.

Old Hammondtown

STUDENTS DONATE TO CARE

For the eighth consecutive year sixth grade students in the class of Mrs. Betty Trow at Old Hammondtown School in Mattapoisett have donated to the international agency CARE.

Melody Friedman, CARE's Field Representative in New England, announced the donation from her Boston office. The donation will be used in CARE's Crusade for Children, which will provide a wide range of assistance for millions of needy children during 1979, the year designated by the United Nations as the "International Year of the Child". Their donation of $10.00 will give up to 3,000 children a cup of protein-enriched beverage, or serve up to 60 children a daily bowl of nourishing porridge for a month.

Taber Library

FILM SERIES AT ELIZABETH TABER LIBRARY

"Civilization", a 13-part film series, will be shown by the Elizabeth Taber Library beginning Wednesday, January 10th, at 7:30 P.M. Written and narrated by Kenneth Clark, the series records the art, history, music and places which have shaped the life of man. The first part, to be shown on the 10th, is entitled "The Frozen World".

On January 17th at 7:30 P.M. the Elizabeth Taber Library will show the second in the 13-part film series called "Civilization". "The Great Thaw" documents the emergence of medieval Europe in the 12th century.

Mary J. Costa

A THANK YOU

I want to thank all my friends who came to help me celebrate my first birthday party, on my 90th birthday; also thanks to town officials and guests, Mr. Rochette, Father Bill of St. Anthony's Church, FISH, members of the Nutrition Program; also members of my family who were present; and a special thanks to Mrs. Santos who made it all possible.

To all, Thanks again. Annie DeRose

MRS. ANNIE DeROSE, RIGHT, CELEBRATES HER 90th BIRTHDAY AT THE REGIONAL NUTRITIONAL LUNCH PROGRAM AT LEGION HALL, MATTAPOISETT. AMONG THE MANY SENIORS JOINING THE FESTIVITIES WAS HER SISTER, MRS. JOSEPHINE ALVES, LEFT ABOVE. THE PARTY WAS ARRANGED BY MRS. ADDIE SANTOS WHO IS IN CHARGE OF THE NUTRITIONAL PROGRAM IN MATTAPOISETT. PHOTO BY WIN JENNEY

ST. ANTHONY'S C.C.D. NEWS

Registration for first grade C.C.D. classes is now being held. Classes will start at the end of January. Please call the Rectory Office, 758-3719, or Mrs. Martha Osborne, 758-6038, to register your child.

Baptismal information is required.

P.T.C. News

The Mattapoisett P.T.C. cordially invites you to join us Friday evening, January 19th, at Harbor Beach Restaurant for an informal meeting followed by a dance demonstration by Jim & Nancy Barrett. We'd like to give parents the opportunity to meet our officers and also to ask any questions they might have regarding our work for the schools. It promises to be a most enjoyable evening, so please make a note on your calendar. See you there!

of Marriage Encounter and are curious, plan to come and hear "encountered couples" speak of their own experience. Marriage Encounter is a weekend designed to give married couples the opportunity to grow closer and to deepen and enrich the joys of marriage. It is not a retreat, nor a marriage clinic. There is no group therapy and no sensitivity sessions.

Marriage Encounter is an ecumenical program and any couple can go on any weekend. Weekends are held by Congregational, Episcopal, Jewish and Catholic expressions.

We invite you to invest one hour as a couple on January 14th at 7:30 P.M. The information night will be held at The Church of the Good Shepherd, Fairhaven, which is located on 357 Main Street in North Fairhaven. For further information call 997-8747 or 748-0345.

ROCHESTER 300 COMMITTEE

The Rochester 300 Committee will meet January 19th at 7:30 P.M. in Rochester Fire Station to accept reservations for dates on the 300 Calendar.

Any group or person who has any intention of taking part or being in any way involved is urged to attend.

This is it, folks, it's count-down time!

ence of hosting a European student for the school year 1979-1980.

SISE is the only European based exchange service, serving students between the ages of 16-18, and dedicated to the promotion of International Understanding and Fellowship.

The students' interests are varied and cover a wide range of activities. During their stay here, they, as a member of the family, would learn about American ways of life and customs while at the same time sharing with their host families the tremendous cultural and personal experience of their own country. All the students have had at least 6 years of English in school, and are covered by Medical Insurance and have their own spending money.

The time students stay in the USA is generally considered their greatest and most memorable experience of their lives. Join in this fellowship and help the cause of International understanding by providing this experience for a foreign student.

Write Mrs. Mary Briggs, P. O. Box 175A, E. Wareham, Mass. 02538; or call 1-295-4767 after 2:30 P.M.

STROKE INFORMATION AVAILABLE

A comprehensive article entitled "Stroke: What's It All About" is now available from the Cape & Islands Division of the American Heart Association. Written by Charles D. Bonner, M.D., President of the Massachusetts Affiliate of American Heart and Director of Rehabilitation at Youville Hospital in Cambridge.

Stroke is the term which has been popularized in recent years to denote what once was called a cerebral vascular accident or shock. It is a disease entity and syndrome which has been known for centuries. The American Heart Association considers stroke a major disease of the cardiovascular system and is concerned

not only with the rehabilitation of the stroke patient but also in education which could prevent a stroke from occurring.

Dr. Bonner deals with the following questions in his article: 1. What causes a stroke; 2. What are the symptoms; 3. Do I have brain damage; 4. What can be done; and 5. How could this have been prevented?

Copies of the article can be obtained at no charge from the Cape & Islands Division, American Heart Association, 383 Iyanough Road, Hyannis, Mass.

Charles Laquidara, WBCN; Jack Williams, Channel 4; these celebrities and many others will be cross country skiing in the first annual Cross Country Ski-a-Thon for Mentally Retarded People on January 28. ("No Snow" dates are February 4 and, if necessary, February 11.)

Organized by the Massachusetts Association for Retarded Citizens (MARC), the Ski-a-Thon will be held in selected sites throughout Massachusetts. The Massachusetts Jaycees and Eastern Mountain Sports, Inc. are co-sponsoring the fund-raiser, which will help MARC create needed services and opportunities for retarded citizens.

Cross country skiers are needed. Registration forms are available by contacting the MARC office, 381 Elliot Street, Newton Upper Falls, MA. 02164; telephone (617) 965-5320. Forms are also available at local Eastern Mountain Sports stores and local ski shops.

Using the registration form, skiers obtain sponsors who pledge a certain amount for each kilometer they ski. Prizes will be awarded to those who ski the most kilometers and raise the most funds.

Can't ski? Then, sponsor a celebrity skier. Joining Bill Lee, Bud Collins, Tom Ellis, Charles Laquidara, and Jack Williams on the ski trails are: Tony Pepper and Mary Stewart, Channel 4; Jordan Rich, WRKO; Don Batting, WBZ; Judy Ferguson, WBCN; Diane Stern, WEEI; Anne McGrath and Ron Gollobin, Channel 5; Meteorologists Bob Copeland, Dick Albert, Channel 5; Harvey Leonard, Channel 7; Barry Burbank, Channel 4; Roger LaPlante, radio station 14Q and Channel 27; and Thom Aldert and George Allen, Channel 6. Randy Vataha, former Patriots wide receiver, will also ski.

Celebrity sponsor forms are also available at the MARC office, nearest Eastern Mountain Sports store, or local ski shop.

SEWER USE REGULATIONS

The Board of Selectmen, acting as Sewer Commissioners, of the Town of Mattapoisett, Commonwealth of Massachusetts, acting in accordance with the provisions of Chapter 40, Section 21 and Chapter 83, Section 10 of the General Laws, as amended, hereby adopted the following Rules and Regulations governing connection to and use of the Town's common sewers.

ARTICLE I
DEFINITIONS

Unless the context specifically indicates otherwise, the meaning of terms used in this Regulation shall be as follows:

SEC. 1: Applicant shall mean any person requesting approval to discharge wastewaters into Municipal facilities or for a new connection to the public system.

SEC. 2: "BOD" (denoting Biochemical Oxygen Demand) shall mean the quantity of oxygen utilized in the biochemical oxidadation of organic matter under standard laboratory procedure in five (5) days at 20°C, expressed in milligrams per liter.

SEC. 3: "Building Drain" shall mean that part of the lowest horizontal piping of a drainage system which receives the discharge from soil, waste, and other drainage pipes inside the walls of the building and conveys it to the building sewer, beginning ten (10) feet (3.05 meters) outside the inner face of the building wall.

SEC. 4: "Building Sewer" shall mean the extension from the building drain to the public sewer or other place of disposal.

SEC. 5: "Combined Sewer" shall mean a sewer receiving both surface runoff and sewage.

SEC. 6: "Garbage" shall mean solid wastes from the domestic and commercial preparation, cooking, and dispensing of food, and from the handling, storage, and sale of produce.

SEC. 7: "Industrial Wastes" shall mean the liquid wastes from industrial manufacturing processes, trade, or business as distinct from sanitary sewage.

SEC. 8: "Natural Outlet" shall mean any outlet into a watercourse, pond, ditch, lake, or other body of surface or groundwater.

SEC. 9: "Person" shall mean any individual, firm, company, association, society, corporation, or group including a city, county or other governmental unit.

SEC.10: "pH" shall mean the logarithm of the reciprocal of the weight of hydrogen ions in grams per liter of solution.

SEC.11: "Properly Shredded Garbage" shall mean the wastes from the preparation, cooking, and dispensing of food that have been shredded to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half (½) inch (1.27 centimeters) in any dimension.

SEC.12: "Public Sewer" shall mean a sewer in which all owners of abutting properties have equal rights, and is controlled by public authority.

SEC.13: "Sanitary Sewer" shall mean a sewer which carries sewage and to which storm, surface, and groundwaters are not intentionally admitted.

SEC.14: "Sewage" shall mean a combination of the water-carried wastes from residences, business buildings, institutions, and industrial establishments, together with such ground, surface, and stormwaters as may be present.

SEC.15: "Sewage Treatment Plant" shall mean any arrangement of devices and structures used for treating sewage.

SEC.16: "Sewage Works" shall mean all facilities for collecting, pumping, treating, and disposing of sewage.

SEC.17: "Sewer" shall mean a pipe or conduit for carrying sewage.

SEC.18: "Shall" is mandatory; "May" is permissive.

SEC.19: "Slug" shall mean any discharge of water, sewage, or industrial waste which in concentration of any given constituent or in quantity of flow exceeds for any period of duration longer than fifteen (15) minutes, more than five (5) times the average twenty-four (24) hour concentration or flows during normal operation.

SEC.20: "Storm Drain" (sometimes termed "Storm Sewer") shall mean a sewer which carries storm and surface waters and drainage, but excludes sewage and industrial wastes, other than unpolluted cooling water.

SEC.21: "Superintendent" shall mean the Superintendent designated by the Sewer Commissioner of the Town of Mattapoisett, or his authorized deputy, agent, or representative.

SEC.22: "Suspended Solids" shall mean solids that either float on the surface of, or are in suspension in water, sewage, or other liquids, and which are removable by laboratory filtering.

LEGAL NOTICE

SEC.23: "Watercourse" shall mean a channel in which a flow of water occurs, either continuously or intermittently.

SEC.24: The "Board" shall mean the "Board of Sewer Commissioners" of the Town of Mattapoisett.

ARTICLE II
BUILDING SEWERS AND CONNECTIONS

SEC. 1: No person shall uncover, make any connections with or opening into, use, alter, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the Superintendent.

Any person proposing a new discharge into the system or a substantial change in the volume or character of pollutants that are being discharged into the system shall notify the Board of Sewer Commissioners at least forty-five (45) days prior to the proposed change or connection.

SEC. 2: All costs and expense incident to the installation and connection of the building sewer shall be borne by the owner.

SEC. 3: A separate and independent building sewer shall be provided for every building required to have sewage collection and treatment by a proper government authority with the following exception:

a. Any multiple family complex, a commercial complex, or an industrial complex which has a privately owned and maintained collector system.

SEC. 4: Old building sewers may be used in connection with new buildings only when approved in writing by the Superintendent.

SEC. 5: The size, slope, alignment, materials of construction of a building sewer, and the methods to be used in excavating, placing of the pipe, jointing, testing, and back filling the trench, shall all conform to the requirements of the building and plumbing code or other applicable rules and regulations of the Town and specifications of the Sewer Commissioners. In the absence of code provisions or in amplification thereof the materials and procedures set forth in appropriate specifications of the A.S.T.M. and W.P.C.F. Manual of Practice No. 9 shall apply.

SEC. 6: Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such building drain shall be lifted by means approved by the Town's plumbing Inspector and discharged to the building sewer.

SEC. 7: No person shall make connection of roof downspouts, exterior or interior foundation drains, areaway drains, or other sources of surface runoff or groundwater to a building sewer or building drain which in turn is connected directly or indirectly to a public sanitary sewer.

SEC. 8: The connection of the building sewer into the public sewer shall conform to the requirements of the building and plumbing code or other applicable rules and regulations of the Town, or the procedures set forth in appropriate specifications of the A.S.T.M. and the W.P.C.F. Manual of Practice No. 9. All such connections shall be made gastight and watertight.

SEC. 9: The applicant for a building sewer permit or sanitary sewer connection permit shall make application on a special form furnished by the Town. The permit application shall be supplemented by any plans, specifications and or other information considered pertinent in the judgement of the Superintendent. The applicant for the building sewer permit shall notify the Superintendent when the building sewer is ready for inspection and connection to the public sewer. The connection shall be made under the supervision of the Superintendent or his representative.

SEC.10: All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways, and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the Superintendent.

SEC.11: The Board shall establish a Schedule of Entrance Fees and may amend the same from time to time. The Entrance Fee shall be a unit charge for each dwelling or business unit serviced by a direct or indirect connection made to a public sewer. This fee shall be paid prior to any work being commenced by the Town or the Owner to effect such connection. A single family house or one apartment unit shall constitute one dwelling unit and each individual business in a shopping center or business complex shall constitute one business unit. This fee shall be paid for each unit connected directly to the Town's sewer system as well as for each unit which is later added on to a sewer system which eventually deposits sewage into the Town

system. No building sewer permit or sanitary sewer connection permit will be issued unless the person applying for the permit has paid the required Entrance Fee.

SEC.12: Entrance Fees are established pursuant to Article II Section 11 shall not include installation and connection costs. All costs and expenses incident to the installation and connection of the building sewers, the installation of or the connection of sanitary sewers shall be borne by the Owner. The Owner shall indemnify the Town from loss or damage that may directly or indirectly be occasioned by the installation of the building sewer or the connection for the sanitary sewer. The Board shall establish a Schedule of Charges for the installation and connection of building sewers and the installation of connections for sanitary sewers and may amend the same from time to time. No building sewer permit or sanitary sewer connection permit will be issued unless the person applying for the permit has deposited with the Town a certified check, payable to the Town of Mattapoisett, in the amount determined by the Superintendent. In the event the cost of the installation and connection of a building sewer or the installation of a sanitary sewer exceeds the amount deposited with the Town by the Owner, then the Owner shall reimburse the Town for all costs exceeding the amount deposited. If reimbursement is not made, the costs shall be considered a lien upon the property served by the said building sewer.

SEC.13: All private sewers laid by private parties in any street, court or way, open, or proposed to be opened for public travel and accommodation, shall become public sewers when connected to public sewers or drains. After the adoption of this Regulation no such sewer shall be connected with a public sewer until plans showing size, material, construction, depth, and location are approved by the Superintendent and until the owner shall convey in writing to the Town exclusive control over the same, with the right to enter such street, court or way and dig up the same so far as necessary for repairing and controlling such sewer or drain and making connections therewith.

ARTICLE III
USE OF THE PUBLIC SEWERS

SEC. 1: No person shall discharge or cause to be discharged any stormwater, surface water, groundwater, roof runoof, subsurface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer.

SEC. 2: No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

a. Any gasoline, benzene, naptha, fuel, oil, or other flammable or explosive liquid, solid or gas.

b. Any waters or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant.

c. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc. either whole or ground by garbage grinders.

SEC. 3: No person shall discharge or cause to be discharged any substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such substances, materials, water or wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream, or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming this opinion as to the acceptability of these substances, materials, waters or wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. This prohibition shall include but not be limited to the following:

a. Any liquid or vapor having a temperature higher than one hundred fifty (150^{o})F (65^{o})C.

LEGAL NOTICE

b. Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100)mg/l or containing substances which may solidify or become viscous at temperatures between thirty-two (32^{o})F and one hundred fifty (150^{o})F(0^{o}&65^{o})C.

c. Any garbage that has not been properly shredded. The installation and operation of any garbage grinder equipped with a motor of three-fourths (3/4) horsepower (0.76 hp metric) or greater shall be subject to the review and approval of the Superintendent.

d. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solutions whether neutralized or not, unless heavy metals and other sludge have been adequately removed from said wastes in the opinion of the Superintendent.

e. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.

f. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be established by the Superintendent as necessary, after treatment of the composite sewage to meet the requirements of the State, Federal, or other public agencies or jurisdiction for such discharge to the receiving waters.

g. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.

h. Any waters or wastes having a pH in excess of 9.0 or any waters or wastes having a pH lower than 5.5, or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.

i. Materials which exert or cause:

1. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).

2. Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).

3. Unusual BOD, chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.

4. Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.

j. Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

SEC. 4: If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters or wastes contain the substances or possess the characteristics enumerated in Section 3 of this Article, and which in the judgement of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

a. Reject the wastes.

b. Require pretreatment to a condition acceptable to the Superintendent for discharge to the public sewers.

c. Require control over the quantities and rates of discharge, and/or

d. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Section 9 of this Article.

If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent, and subject to the requirements of all applicable codes, ordinances, and laws.

SEC. 5: Grease, oil, and sand interceptors shall be provided when, in the opinion of the Superintendent, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand, or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the Superintendent and shall be located so as to be readily and easily accessible for cleaning and inspection.

LEGAL NOTICE

SEC. 6: Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.
SEC. 7: When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters, and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safety located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at his expense, and shall be maintained by him so as to be safe and accessible at all times.
SEC. 8: All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this regulation shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater", published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken). Normally, but not always, BOD and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples.
SEC. 9: No statement contained in this article shall be construed as preventing any special agreement or arrangement between the Town and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the Town for treatment, subject to payment therefore, by the industrial concern.

All industries discharging into a public sewer shall perform such monitoring of their discharges as the Board of Sewer Commissioners and/or other duly authorized employees of the Town may reasonably require, including installation, use, and maintenance of monitoring equipment, keeping records and reporting the results of such monitoring to the Board of Sewer Commissioners. Such records shall be made available upon request by the Board of Sewer Commissioners to other Agencies having jurisdiction over discharges to the receiving waters."
SEC.10: No septic tank solids shall be discharged into the Town's sewage works. All septic tank waste shall be discharged in accordance with regulations of the Mattapoisett Board of Health and/or Massachusetts Department of Public Health.

ARTICLE IV
INDUSTRIAL WASTES

SEC. 1: The Board is authorized and empowered to enter into agreements or to make other arrangements for handling and treating industrial wastes which in its opinion are amenable to treatment in the Town of Fairhaven's Sewage Treatment Plant.

The Board, shall determine charges to be levied against various industries for the handling and treating of its industrial wastes.

ARTICLE V
PROTECTION FROM DAMAGE

SEC. 1: No person shall maliciously, wilfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance, or equipment which is a part of the sewage works. Any person violating this provision shall be subject to arrest and criminal prosecution.

ARTICLE VI
POWERS AND AUTHORITY OF INSPECTORS

SEC. 1: The Superintendent and other duly authorized employees of the Town bearing proper credentials and identification shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling, and testing in accordance with the provisions of this regulation.

SEC. 2: The Superintendent and other duly authorized employees of the Town bearing proper credentials and identification shall be permitted to enter all private properties through which the Town holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair, and maintenance of any portion of the sewage works lying within said easement. All entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

ARTICLE VII
PENALTIES

SEC. 1: Any person found to be violating any provision of this regulation, except for violations of the terms of Agreements entered into pursuant to Article VI, shall be served by the Town with written notice stating the nature of the violation. The offender shall, within the period of time stated in such notice, permanently cease all violations. Posting of notice on the property shall be construed as service of notice, if a copy of said notice is mailed to the owner as shown on the Assessor's Records at the address shown on said records, said mail to be sent Certified Mail, Return Receipt Requested.
SEC. 2: Any person who shall continue any violation beyond the time limit provided for in Article VII, Section 1, shall be guilty of a misdemeanor, and on conviction thereof, shall be fined in an amount not exceeding twenty ($20.00) dollars for each violation. Each day in which any such violation shall continue shall be deemed a separate offense.
SEC. 3: Any person violating any of the provisions of this regulation shall become liable to the Town for any expense, loss, or damage including reasonable legal fees, occasioned the Town by reason of such violation.

ARTICLE VIII
VALIDITY

SEC. 1: All rules and regulations or parts of rules and regulations in conflict herewith are hereby repealed.
SEC. 2: The invalidity of any section, clause, sentence, or provision of this regulation shall not affect the validity of any other part of this regulation which can be given effect without such part or regulation.

ARTICLE IX
PERMIT

SEC. 1: Prior to any person installing or repairing a building, sewer and/or sanitary sewer or making any connection to the common sewer, the owner and contractor shall obtain a Special Work Permit from the Sewer Commissioners. The Permit shall be on such form as the Sewer Commissioners shall determine from time to time and shall fix the time of inspection of the work by the Sewer Commissioners or their designee.
SEC. 2: Any person applying for such Work Permit shall pay such fee as shall be fixed from time to time by the Sewer Commissioners. The fee shall cover the cost of issuing the permit and the inspection of the progress of the work.
SEC. 3: No person doing any work under a Work Permit shall cover over such work until the same has been inspected.
SEC. 4: A contractor who violates the provisions of this Artilce may, after hearing by the Sewer Commissioners, be denied any further Work Permits and any owner who hires such a contractor and knew or should have known of the violation or violations may be denied further Work Permits.
SEC. 5: The Sewer Commissioners may revoke any Work Permit for a violation of these Regulations, or the Sewer Commissioners may stop any further work under a Permit if they are of the opinion that said work may cause injury to the common sewer.
SEC. 6: The Sewer Commissioners may order any corrective work they believe necessary to any connection to the common sewer which they believe will avoid injury, harm or potential injury or harm to the common sewer system or the Fairhaven treatment plant.

ARTICLE X
VARIANCE

SEC. 1: The Sewer Commissioners, after a public hearing, may grant a variance from the Regulations to any property owner or occupant of land to be connected to the common sewer, if in the opinion of the Sewer Commissioners the allowance of a variance is in the best interest of the Town of Mattapoisett.

SEC. 2: Any such variance shall be in writing and filed with the records of the Sewer Commissioners and a copy filed with the Town Clerk. No variance shall become effective until said variance is so recorded.
SEC. 3: The Sewer Commissioners, after a public hearing and for cause may revoke any variance previously given.

ARTICLE XI
REGULATION IN FORCE

SEC. 1: This regulation shall be in full force and effect from and after its passage, and publication as provided by law.

BOARD OF SELECTMEN, ACTING AS
SEWER COMMISSIONERS

William F. Hubbard, Chairman
Richard W. Blasdale
John N. DeCosta

January 10, 17, 24, 1979

SPECIFICATIONS FOR THE CONSTRUCTION
OF HOUSE CONNECTIONS TO THE
MATTAPOISETT SEWER SYSTEM

The following specifications detail minimum standards that must be followed by contractors installing sewer connections that tie into the Mattapoisett Sewer System.

I-GENERAL: No construction can be initiated unless a permit for the connection has been obtained from the Mattapoisett Board of Selectmen/Sewer Commissioner in accordance with the Mattapoisett Sewer Use Regulation. In addition, the Contractor must be licensed to perform such work in the Town of Mattapoisett and must be properly insured to protect private and public property.

The Contractor/Homeowner should check with the Mattapoisett Board of Selectmen/Sewer Commissioners to locate the house service that has been left at the property line for each home. Ties are available to locate the pipe in the field.

The existing house service is capped and is generally marked with a wooden stake to aid in locating. The cap to the existing sewer should not be removed until all water in the trench is removed. No surface drainage or groundwater should enter the existing house service. The Building Inspector will not allow any construction without proper dewatering of the trench and proper control of any surrounding surface water.

II-MATERIALS: The following materials can be used for the construction of a house service in Mattapoisett.

a.) Asbestos Cement Pipe, minimum class 1500, with couplings and rubber rings for joints.
b.) Plastic Pipe meeting ASTM D 30-34 with a SDR 35. Joints shall be bell and spigot with rubber rings.
c.) Cast Iron Pipe meeting AWWA-H3 (ANSI A21.50) with rubber gasket joints in accordance with AWWA C111 (ANSI A21.11). In most cases a 4" house service has been left for each homeowner. Thus, the house connection pipe shall be 4" unless otherwise noted.

III-CONSTRUCTION:

a.) Excavation by the Contractor shall consist of a trench with a maximum width of 3 feet. The final 6 inches of the trench shall be excavated by hand so that proper bedding for the pipe and the bells is attained.
b.) In the construction of sewer house connections, the pipe shall be laid on an even-tamped foundation of coarse sand, fine gravel or 3/4" crushed stone except that when wet or soft soil conditions prevail, 3/4" crushed stone shall be used for foundation of all pipe. The backfill shall be throughly compacted by tamping or other approved methods up to the spring line of the pipe.
c.) Pipe shall be laid to a reasonable straight line and preferably at not less than 2% grade. For a 4 inch pipe, a grade of 1/4"/ft. is required with 1/8"/ft acceptable for 6 inch pipe.
d.) The Contractor shall insure that a minimum of 4 ft. of cover is provided over the house connection pipe. If cast iron pipe is used, the cover may be reduced to 3ft.

LEGAL NOTICE

e.) Installed pipe and joints shall be free of all foreign matter. No construction will be allowed in water. The Contractor must dewater the trench to insure proper installation of the pipe.
f.) Care shall be taken during backfilling to insure that the pipe is not injured or distrubed by stones or other material. Backfill material to a foot above the pipe shall be a granular material with no large stone on or near the pipe. The backfill shall be thoroughly compacted by tamping or other approved methods up to finished grade.
g.) Before backfilling the pipe, the Contractor must notify the Building Inspector that the house service connection is complete and ready for inspection. No final tie-in of the house plumbing to the new pipe can be made without a final review and approval of the Building Inspector.
h.) The final connection to the cast iron pipe from the home shall be made watertight by using a special fitting or adaptor that is available for the pipe. No other connection will be approved for use in Mattapoisett.
i.) The house service pipe should be laid in a separate trench 5 ft. away from an existing water service or gas service. Deviations from this must be brought to the attention of the Building Inspector.
j.) Should the above procedure not be followed, the Building Inspector is authorized to reject the house connection work. Corrective action in accordance with the above will be required before final acceptance and a connection to the Mattapoisett sewer system can be made.

MORTGAGEE'S SALE OF REAL ESTATE

By virtue and in execution of a power of sale contained in a certain mortgage given by KENNETH A. ELLIS and PATRICIA T. ELLIS, husband and wife, of Fairhaven, Bristol County, Commonwealth of Massachusetts to NEW BEDFORD FIVE CENTS SAVINGS BANK, a corporation established by authority of the Commonwealth of Massachusetts and doing business at New Bedford, Bristol County, said Commonwealth, dated April 14th, 1976 and recorded with Plymouth County Registry of Deeds, Book 4152, Page 431, of which mortgage the undersigned is the present holder, for breach of the conditions of said mortgage and for the purpose of foreclosing the same will be sold at public auction on Wednesday, February 7th, 1979, at 11:45 o'clock A.M., on the premises, all and singular the premises described in said mortgage, to wit:

Land situated in Mattapoisett, Plymouth County, said Commonwealth, bounded and described as follows:

"BEGINNING at the southwesterly corner of the land herein mortgaged at the northeasterly corner of Highfield Road and Oliver Way;

thence NORTH 4° 28' 50" WEST by said Oliver Way, one hundred twenty-three and 54/100 (123.54) feet to a stone wall;

thence NORTH 73° 47' 40" EAST in line of said stone wall by land now or formerly of Ella F. Vaughan, one hundred sixty-two and 94/100 (162.94) feet to land now or formerly of Norman Soares, et ux;

thence SOUTH 17° 56' 00" EAST by last-named land, one hundred twenty-two (122) feet to the northerly line of said Highfield Road; and

thence SOUTH 73° 47' 40" WEST in said line of Highfield Road, one hundred ninety-one and 70/100 (191.70) feet to the point of beginning.

BEING the westerly portion of Lot #2 on Plan of Land in Mattapoisett, Mass., surveyed for Thaddeus Walega and Edwin Livingstone, Jr., dated July 30, 1963, Samuel H. Corse, Surveyor, filed with Plymouth County Registry of Deeds in Book 3074, Page 94.

BEING the same premises conveyed to us by deed of William K. Wilbur, et ux, of even date to be recorded herewith."

Subject to all unpaid taxes

TERMS: 10% in cash or certified check; Balance in 10 days upon delivery of deed.

Dated: January 4th, 1979

CETA YOUTH GRANTS AVAILABLE

If you're part of a well-established community group that might like to perform a public service and put some young people to work at the same time, get in touch with the New Bedford Consortium.

The area's CETA agency has announced it has funds available to employ a total of thirty young persons on special projects funded through CETA, the Comprehensive Employment and Training Act.

There is no limit on the number of persons on a project, but Consortium public relations officer Steven C. Sharek said projects generally employ 6-12 workers. The projects usually last 9-12 months, he said.

CETA is currently funding special youth projects sponsored by the Bristol County Conservation District and Coastline Elderly Services.

Sharek said special CETA youth projects provide a needed public service and offer youths employment, work experience and occupational training. They are designed for unemployed youths between 16 and 19 years of age.

Bedford, Acushnet, Dartmouth, Fairhaven, Marion, Mattapoisett, Rochester or Wareham may apply.

Deadline for applications in January 26.

Applications can be picked up at the CETA Youth Office, New Bedford Regional Job Center, 181 Hillman Street, New Bedford between 9 A.M. and 5 P.M. Monday-Friday.

SMU GETS NEW TELEPHONE SYSTEM

As of Monday, January 8, Southeastern Massachusetts University will have a new telephone number.

To reach the SMU main switchboard, callers should dial (area code 617) 999-8000. In addition, outside callers may now dial individual SMU extensions directly, without going through the switchboard. For example, the admissions office may be reached by dialing 999-8605.

Telephone company technicians have been at SMU since early autumn installing the new "Dimension 2000 with DID (Direct Inward Dialing)", a computerized system with numerous special features. SMU
